SOURCE [REDACTED]

1. A new spur track, running southwest into a wooded area, is being constructed at the Koeponick (N 53/2 94) railroad station. The work is being done by labor details of 60 to 100 men, including 40 percent women. They work day and night shifts under the supervision of Soviet officers. \*

25X1A

- \* [REDACTED] Comment. The spur track is presumably to supply parking facilities with cover from air observation for one or several trains. Special headquarters trains of the SCC from the nearby Karlshorst (N 53/2 94) are possibly to be parked there. The Koeponick railroad station is on the double-track Berlin (N 53/2 75) -Frankfurt/Oder line.
